DID YOU KNOW?

There is a Hibiscus program being taught in the State Prison at Raiford. They have asked for any material that could be sent. Old copies of plant magazines or any other horticultural material that you would like to send to them. The person to send to is, Mr. M. B. Jordan, Dept. of Education, Box 221, Raiford, Florida. They have been put on the mailing list for the Seed Pod, but if you have any other material they would be glad to get it.

There is an inmate of the prison who is a member of the AHS. He has written and asked for these favors if you can help.
